## Department

If you're passionate about working with children and families, consider enrolling in Child and Family Studies and Education (CFSE). Our program offers flexible options to suit your goals. You can obtain certificates, credentials, preparation for advanced study, and skills for immediate employment. If you are exploring various options or already have a goal in mind, CFSE is the program for you!

### Occupations

There is an existing teacher shortage, and California is investing millions to hire, train, and retain new talent in the classrooms. As a result, credentialed teachers are in high demand, and have many opportunities for jobs and advancement in both public and private school settings. Outside the classroom, graduates can work in youth organizations, school counseling, develop curriculum, and support education policy changes and innovation. This program also prepares students for advanced study in a variety of fields that work with children and families.
