

ENVIRONMENTAL SCIENCES

Department

If you want to save the planet, you need the right tools. Environmental science provides the foundation for conservation, environmental law, renewable energy, sustainable business innovation, and other initiatives to combat climate change.

Occupations

Environmental scientists are in demand in a wide range of fields as businesses and governments invest in sustainability. Careers can include working in environmental policy, renewable energy, conservation, agriculture, urban planning and development, natural resource management, and education.

- Environmental scientists
- Sustainability coordinators
- Climate change policy analysts
- Public planners
- Organic farmers
